### **Texas Child Mental Health Care Consortium**

Improving mental health care and systems of care for the children and adolescents of Texas.

#### **Who We Are**

The Texas Child Mental Health Care Consortium (TCMHCC) was created by the 86th Texas Legislature to leverage the expertise and capacity of the health-related institutions of higher education to address urgent mental health challenges and improve the mental health care system in this state in relation to children and adolescents.

#### **TCMHCC has Five Initiatives:**

The Child Psychiatry Access Network (CPAN) provides telehealth-based consultation and training to primary care providers. [Learn More](#)

The Texas Child Health Access Through Telemedicine (TCHATT) program provides in-school behavioral telehealth care to at-risk children and adolescents. [Learn More](#)

The research initiative has created two state-wide networks to study and improve the delivery of child and adolescent mental health services in Texas. [Learn More](#)

The Community Psychiatry Workforce Expansion (CPWE) funds full-time academic psychiatrists as academic medical directors and new psychiatric resident rotation positions at facilities operated by community mental health providers. [Learn More](#)

The Child and Adolescent Psychiatry (CAP) Fellowships program expands both the number of child and adolescent psychiatry fellowship positions in Texas and the number of these training programs at Texas HRIs. [Learn More](#)

#### **Contact**
