

**Bid 22-055 – Construction of Bamore Road – Segment 2 from Stella Road to Cottonwood  
Road School Road for Fort Bend County Mobility Bond 17105**

**Q&A #2**

Question 1: Sheet 94 of the removal sheets shows us to cut, cap, and abandon the pipeline at proposed ROW and remove 450 LF of steel pipe. Sheet 46 shows that the 6” pipeline is already abandoned. Can you please verify that the pipeline is already abandoned? Also, will there be any hazardous materials still in the line that we will have to deal with?

*Answer: Yes, the pipeline is abandoned, but will likely still have residue. The pipeline was a Semgroup “inherited” line and Semgroup has never run any crude oil through the pipeline.*
