

FOR IMMEDIATE RELEASE

June 17, 2026

Fort Bend County Health and Human Services' Environmental Health Announces Aerial Mosquito Spraying Scheduled for June 22 - June 24, 2026

Rosenberg, TX— Fort Bend County Health and Human Services Environmental Health Division will conduct aerial mosquito spraying from June 22-24, 2026, to control the mosquito population and protect public health. Weather permitting, the aerial application of the mosquito control pesticide Dibrom Concentrate (EPA #5481-480) will commence over designated areas of Fort Bend County, beginning around sunset on June 22.

The map below shows the areas currently planned for treatment during this operation. Planned treatment areas are subject to change.

Maria Alanis-Caireli
Public Information Officer
Fort Bend County Health & Human Services
Comms@fortbendcountytx.gov

The emergency abatement measure follows Fort Bend County Judge Daniel Wong’s June 16, 2026, **Declaration of Local Public Health Emergency Due to Extraordinary Mosquito Populations**, to protect public health by reducing the risk of mosquito-borne disease transmission and other adverse impacts.

Protect yourself and your family from mosquito bites by following the 4 “Ds” of mosquito safety:

- Avoid **Dusk and Dawn** when mosquitoes are most active.
- **Drain** standing water around your property.
- **Dress** in long sleeves and long pants when feasible.
- **Defend** yourself by using repellent containing DEET or other CDC-approved mosquito repellents.
