TOP 5 SAFETY/NEIGHBORHOOD TIPS

1. If you have to call **911**, be calm. Clear and concise facts will help the deputies/police a great deal
2. Program **911** into your cell phone in case you're in an accident – it's easier to call for assistance. Make sure you know your location when calling from a cell phone
3. When approaching your vehicle, have your key ready. Always look around and inside your car before you enter it
4. Know who your neighbors are and the cars they drive
5. If you walk or run at night, wear white clothing. Reflective tape would be a great addition to your outfit
