Bates Allen Park, Orienteering Course \#1, 1.6 miles, Control Description Sheet

| From, | To, CP \# | Bearing | Direction | Feet | Yards | Landmark / Notes | Verification Code* |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $0 /$ | 1 | $165^{\circ}$ | S/SE | 554 | 184.7 | Start at control point 0, next to the YMCA pavilion. Travel at a $165^{\circ}$ bearing to reach CP \#1. The distance is approximately 515 feet if walked straight or 554 feet if you walk on the paved trail. |  |
| 1 | 2 | $290^{\circ}$ | W/NW | 360 | 120.0 | From CP \#1, travel at a $290^{\circ}$ bearing for 337 feet to reach CP \#2. |  |
| 2 | 3 | $260^{\circ}$ | W | 790 | 263.3 | To go from CP \#2 to CP \#3 will require 2 steps. Start at a bearing of 3170 for 265 feet. Then, travel at a bearing of $240^{\circ}$ for 525 feet to reach CP \#3. |  |
| 3 | 4 | $216^{\circ}$ | SW | 630 | 210.0 | While at CP \#3, look at question \#3 below. From CP \#3, travel at a $216^{\circ}$ bearing for 630 feet to reach CP \#4. |  |
| 4 | 5 | $255^{\circ}$ | W | 730 | 243.3 | Starting at CP \#4, travel at a $255^{\circ}$ bearing for 730 feet to reach CP \#5. |  |
| 5 | 6 | $263{ }^{\circ}$ | W | 715 | 238.3 | From CP \#5, travel at a $263^{\circ}$ bearing for 715 feet to reach CP \#6. If you walk on the paved trail, then the distance is approx. 845 ft . |  |
| 6 | 7 | $162^{\circ}$ | S/SE | 1000 | 333.3 | Walk west along the paved trail for 190 feet. Then, follow the Jim Allen Nature Trail (unpaved), starting at a $155^{\circ}$ bearing, for about 790 feet to reach CP \#7. |  |
| 7 | 8 | $60^{\circ}$ | NE | 1235 | 411.7 | Follow the Jim Allen Nature Trail in the N/NE direction for 1235 feet to get to CP \#8. |  |
| 8 | 9 | $76^{\circ}$ | E/NE | 956 | 318.7 | Walk on the paved trail E/NE to about 956 feet to reach CP \#9. If you walk straight to CP \#9, the distance is 890 feet. |  |
| 9 | 10 | $86^{\circ}$ | E/NE | 823 | 274.3 | From CP \#9, walk 823 feet to reach CP \#10. If you walk straight from CP \#9 without following the trail, then the distance is 626 feet. |  |
| 10 | $\left\|\begin{array}{c} 0 / \\ \text { End } \end{array}\right\|$ | $33^{\circ}$ | N/NE | 790 | 263.3 | To go from CP \#10 to the end marker CP \#0 will require 2 steps. Start at the farthest edge of the bridge and travel at a bearing of $80^{\circ}$ on the paved path for 150 feet. Then, walk at a bearing of 70 for 640 feet to reach CP \#0, the endpoint. Once at CP \#0, look at question \#2 below. |  |

*Validation Code: Note down the letters found on each marker. These letters will help to decode the passcode; CP: Control Point; Some of the markers will take two steps to reach, so please make sure to read the Notes column for details.

Q1. Discover the Passcode: Enter the letter code from each control point.

Q2. Standing at Control Point \#0 (Start/End), using the stick or felling method, measure the height of the streetlight which is on N/NW side of the parking lot: $\qquad$ feet.

## And / or

Q3. While at CP \#3, measure the width of the road: $\qquad$ feet. Use stick or compass method.

How to Measure Your Pace or Step Length: First, measure a known distance on the ground between two points. Choose a level area where you can walk straight. To keep the accuracy of your distance measurements, you need to use a distance that will require at least 20 paces.
BSA Scouts rank requirements: Orienteering courses at Bates Allen Park are designed to help scouts to complete rank requirements e.g., First Class requirement \#4a. For choosing the course (difficulty level), discuss the options with your troop's Scoutmaster.
